

MOHIT SINGH BORA

PROFILE

Creative and curious tech enthusiast with solid skills in MERN stack development, SQL and NoSQL databases, and Java. Experienced in using Canva for clean, modern designs and actively exploring generative AI to enhance problem-solving and productivity. Focused on building practical, real-world projects with clean code and continuous learning.

EXPERIENCES

fresher

As a fresher, I bring a strong enthusiasm for learning and a proactive approach to skill development. I quickly adapt to new technologies, tools, and workflows, and consistently seek opportunities to grow both technically and creatively. My ability to pick up concepts fast allows me to contribute meaningfully to projects from the start.

SOFT SKILLS

- Hands-on with AI
- creative thinking
- adaptability
- attention to detail
- team collaboration
